Bullers Stormwater Facility - Coir Mat Removal & Pipe Repair

What	We are removing some of the weed proofing matting around the wetland area, and relaying a short length of new stormwater pipe.
Where	The matting removal will be across the wider planted area, and the pipe work will be confined to the north east corner of the wetland. Pedestrians and cyclists will still be able to access to the paths.
When	Pipe work will commence on 7/1/2020, and matting removal will commence on 13/1/2020. Works will be complete by the end of January 2020.
Why	The matting is deteriorating and the pipe requires relaying to achieve its purpose.
Contact	The contractor is City Care Ltd. Contact person is Brent Cations phone 027 215 2224 between 7am-6pm.

- The contractor will access the wetlands from QEII Drive for the majority of the works. Some vehicle access for the matting removal will be via the south end access off East Ellington Drive.
- Pedestrian and cycle access through the wetland pathways will be maintained. Temporary environmental silt controls will be installed prior to work commencing, maintained throughout the duration of the work, and removed on completion.

Thanks for your patience as we work in your area

Noise

There may be increased noise, dust and vibrations during work but it shouldn't impact on your power, water, gas or phone services

Safety

Safety is our biggest priority so please keep children and pets away from worksites.

Bins

Please put your bins out as usual before 6am on your collection day. Our crew will move and return them if needed.
