Transport projects in St Albans, Edgware and Mairehau

What	We are starting work on transport projects in St Albans, Edgware and Mairehau to upgrade main roads and intersections, add cycle and pedestrian facilities and install a safe speed zone.
Where	The major work will happen along Cranford and Sherborne streets, as well as along Berwick Street and Warrington Street including the Forfar Street and Barbadoes Street intersections.
When	Work starts on Monday 3 February and will finish in mid-2020.
Why	With additional traffic entering the area once the Christchurch Northern Corridor (CNC) is complete, this work will allow people to pass through the area, provide safer access to schools, and add safer walking and cycling routes.
Contact	Brendan Bisley, Senior Project Manager, Christchurch City Council Phone: 941 8385 Email: brendan.bisley@ccc.govt.nz

Details

Work coming up

The work will be split between two contractors, Fulton Hogan and Isaac Construction. The contractor doing the work in your area will be in touch before they start work.

The work will be happening at multiple work sites at any one time but care will be taken to ensure that there are good alternative routes available for people passing through.

The work that will happen over the next five months includes:

- A road upgrade on Cranford Street, from Berwick Street to Innes Road
- Upgrading all the intersections along Cranford/Sherborne street
- Installing traffic lights at the intersections of Warrington/Forfar and Warrington/Barbadoes streets, along with safety improvements at other intersections in the area
- Replacing a water main along Sherborne Street and Cranford Street
- Installing traffic lights outside English Park to make it easier for people to access the park and St Albans School.

Safe speed zone

A 40km/h slow speed zone will be introduced from just north of Innes Road through to Bealey Avenue. Rutland Street/Springfield Road will act as the western boundary for the slow speed zone, which will stretch through to Hills Road in the east. An area around the Edgware shops will be made 30km/h.

The slow speed zone will be installed starting in early February with the speed limit put into place at the beginning of March. The full map of the speed limit area is over the page.

Drop-in sessions

Want to know more about the work coming up and to meet the contractors? Come and talk to us at one of our drop-in sessions:

- **Wednesday 19 February, 5pm to 7pm at Mainland Football, 127 Cranford Street**
- **Thursday 20 February, 5pm to 7pm at Mainland Football, 127 Cranford Street**

Safe speed zone

The blue shaded area shows the 40km/h zone, the white streets remain 50km/h and the orange streets will be 30km/h.

Thanks for your patience as we work in your area

Noise

There may be increased noise, dust and vibrations during work but it shouldn't impact on your power, water, gas or phone services.

Safety

Safety is our biggest priority so please keep children and pets away from worksites.
