Transport projects in St Albans, Edgware and Mairehau

| | |
|----------------|--|
| What | We're making changes to Edgware / Barbadoes intersection |
| Where | Edgware Road / Barbadoes Street intersection |
| When | From Monday 4 May 2020 - August 2020 |
| Contact | Fulton Hogan on 027 616 3929 (Mon - Fri, 8am - 5pm) or email cant.info@fultonhogan.com . After business hours, please feel free to call us if the matter is urgent. Please advise us if you have specific property and access requirements e.g. vehicle deliveries, medical visits, planned work. |

What are we doing?

From Monday 4 May for approximately four months, we will be making changes to the intersection of Barbadoes Street and Edgware Road. This work will mostly be carried out during days (7am - 7pm) but we may have to work some nights and will notify you prior to this.

This work will be completed in four stages as per below.

Stage 1

We will be relocating power poles at the west side of intersection and installing drainage in front of the shops at 565 Barbadoes Street.

Stage 2

During this stage we expect to complete:

- Ducting under the northern and western sides of the intersection
- Kerb, channel and footpath in front of the shops at 565 Barbadoes St and drainage on the west side of Edgware Rd.
- Ducting on the northeast side of the intersection on Barbadoes Street.

Stage 3

We expect to complete kerb and channel along the west side of Edgware Rd and the northwest side of Barbadoes Street. We will also complete ducting throughout the intersection and commission traffic lights.

Stage 4

During the final stage of work we expect to complete kerb, channel and footpath on east side of intersection.

Above:
Example of new drainage laid at of Barbadoes / Warrington intersection.

Our work can change

We are doing our best to give you accurate timeframes of what to expect. Although we are confident in our program, often unforeseen issues can be encountered such as buried obstructions, unknown services etc. We attempt to foresee and plan for these risks, but this can still sometimes add to our overall duration. Alternately, sometimes we find ways to speed up production, which means we may carry out some works sooner than expected - and be gone sooner! We apologise for this inconvenience.

Traffic impacts

Temporary changes to traffic management are being made at this intersection for several months, and will vary as works progress, such as road closures at this intersection.

To coincide with other planned works in the area, **traffic will be southbound only on Barbadoes Street between Warrington Street and Edgware Road, from Monday 4 May for up to two months.** This will extend to make Barbadoes St between Edgware Road to Bealey Ave southbound only when the other works begin. Northbound traffic will be detoured.

Stage 1

From Monday 4 May for approximately ten days, shoulder closures will be in place along the southwest side of the intersection on Barbadoes St and Edgware Rd. The left turn pocket on Barbadoes Street northbound will be closed.

We will need to restrict some on-street parking, so will place no parking cones out before we start work. We will aim to minimise this and make parking available as much as possible.

Please be on the lookout for changes to traffic management and follow the signs.

Pedestrians

Pedestrians will be detoured to the opposite side of the road at times.

We know this work is disruptive, so we aim to work as quickly as possible.

Thank you for your patience - we hope you are keeping safe and well during level three.

Sign up for email updates

If you would like to receive updates about this project, please email cant.info@fultonhogan.com with the subject 'St Albans Transport Projects'.

Thanks for your patience as we work in your area

Noise

There may be increased noise, dust and vibrations during work but it shouldn't impact on your power, water, gas or phone services.

Safety

Safety is our biggest priority so please keep children and pets away from worksites.

Bins

Please put your bins out as usual, before 6am on your collection day. Our crew will move and return them if needed.

Other projects

Where we'll be working:

Key

No entry

Work area

Southbound traffic only on Barbadoes St

Access restrictions to your property

We may need to block vehicle access to your property for short periods from time to time. You will receive an access restriction notice in your letterbox the day before this happens to give you time to move your car. If you need access to your vehicle during that day, please move it to a nearby street before 7am. The crew on site will also door-knock affected properties before they block your access. Pedestrian access to your property will be maintained.
