

## IMPORTANT INFORMATION

04/06/20

### **No North bound access to Sherborne St from Bealey Avenue.**

As you are probably aware by now, we have been conducting major watermain, road and drainage works on Sherborne St and adjoining streets for several months. This work includes laying new watermain, drainage, kerb and channel alignment at intersections and a new pedestrian crossing on Bealey Ave. The temporary loss of northbound access on Sherborne is to assist us in completing these works are on behalf of our client, Christchurch City Council and will commence from Monday June 8<sup>th</sup> for approximately 3 weeks.

To do this work efficiently and safely and give our crews enough space to work, we need to temporarily remove north bound access from Bealey Ave. Please follow the signage and detours in place. Southbound traffic on Sherborne is unaffected and **the best detour back to the south end of Sherborne is by going north on Colombo and turning right on Canon**. We apologise for this temporary inconvenience. If you have any difficulty accessing your property please speak to one of our crew or traffic management on site and they will assist you. Please contact me if you have any further issues.

We wish to keep you fully informed of our work and be the least disruptive to your daily routines as possible. At the same time, we need to get our work done and deadlines met so we really appreciate your co-operation and understanding.

For more information or if you have any specific enquiry please speak to the Isaac team on site or email me

**Peter Loakman**

Isaac Communications Manager at:
